Career Objective

Seeking a challenging position in a creative environment where I can leverage my extensive experience in web and mobile application development to contribute to your team of experts and further enhance my technical expertise.

Summary of Qualifications

- Over a decade of experience in full stack development, specializing in both web and mobile applications.
- Strong expertise in modern JavaScript frameworks, responsive design, and API development.
- Proficient in backend and frontend development with a focus on user experience and performance optimization.
- Experienced in leading projects from inception to completion, ensuring high-quality code and adherence to deadlines.

Technical Skills

- **Frontend Development**: React JS, Vue.js 2 & 3, Redux, VueX, D3.js, TailwindCSS, ES6/ES7, Webpack, TypeScript

- **Backend Development**: Node.js, Laravel, PHP, ExpressJS, SailsJS, MySQL, PostgreSQL, MongoDB
- **Mobile Development**: Android Studio, React Native, Hybrid Applications
- **DevOps & Deployment**: GIT, SVN, Laravel Forge, DigitalOcean, AWS
- **Other Tools**: Figma to App, Photoshop to HTML5/CSS conversion, API integration, Restful APIs

Core Strengths

- Ability to manage multiple projects simultaneously with efficiency and accuracy.
- Strong problem-solving skills with the capability to handle complex technical issues independently.
- Adept at collaborating with cross-functional teams to deliver high-quality software solutions.
- Passionate about continuous learning and staying updated with the latest technologies and frameworks.

Educational Qualifications

- **Bachelor's Degree in Information Technology**
- **Professional Training Courses in Web Development**

Professional Experience

Senior Full Stack Developer | Webteractive
September 2019 – August 2024

- Led the development of internal projects using Laravel Livewire.
- Implemented custom API integrations using the Laravel Service Container for Google, Facebook, and Monday APIs.
- Developed and maintained engineering calculators and other custom scripts for client websites.
- Managed MySQL bulk updates using artisan commands for non-Laravel projects.
- Lead extraction from EEtech websites form submissions, Facebook ads, On24, and Monday.com
- Webscrapping

ReactJS Developer | DevPartners Davao
December 2018 – September 2019

- Developed a full stack Laravel and React/Redux application for Entex, focusing on real-time construction site status updates.

- Built custom outbound components for Twilio Flex using React and ExpressJS.
- Contributed to the development of a co-working space booking application for Flyspaces, catering to multiple countries.

Senior Web Developer | Les Bois Engineering Innovations
February 2017 – December 2018

- Created a chart application similar to Plot.ly using Django and React JS.
- Provided mentorship on React JS and ECMAScript standards to junior developers.
- Developed and integrated Restful APIs with React/Redux and Django.
- Fix bugs in React Native applications

Full Stack Developer | Bywave
January 2016 – January 2018

- Designed and implemented an inventory system using React/Redux and Firebase.
- Developed APIs using Lithium and Loopback frameworks for F45 applications.
- Spearheaded Vue.js 2 development and contributed to Laravel/Lumen projects.

Drupal Security & Development | OpenTactics
August 2014 – December 2015

- Designed and developed a Chrome application using a custom JavaScript framework.
- Converted PSD designs to Drupal themes and deployed them using SSH, GitHub, and Bitbucket.

Front-end Web Developer | Ultro Digital
December 2011 – July 2014

- Managed end-to-end web development projects, from planning and design to implementation and troubleshooting.
- Worked on high-profile projects like Altech, LPGP, War Memorials Online, and various calculators for Money Advice Service.
- Collaborated closely with backend developers and system engineers to ensure seamless integration and functionality.

Technical Support Representative | Sutherland Global Service Inc.
October 2009 – October 2011

- Provided technical support and customer service through automated call distribution and chat support.
- Diagnosed and resolved technical issues, ensuring high levels of customer satisfaction.

Awards & Certifications

- **Certificate of Achievement**: CSAT Contest Winner, Sutherland Global Services, June 2010
- **Best Logic Design Project**: Holy Child School of Davao College, April 2006
- **Drupal Camp Cebu 2014**: University of San Carlos, November 2014

Seminars Attended

- Sutherland's Center of Learning, August 28 – September 11, 2009
- 3rd Mindanao Information Technology Students Congress, December 1, 2005
- Technical Sessions Multimedia Conference, September 30, 2006
